# Gladiator External Safety Cage Spec Sheet

Galvanized Steel Wire Mesh Safety Cage

## Specifications

SunWeld Gladiator External Safety Cages shall be model No. \_\_\_\_\_ as provided by Carlisle SynTec Systems, Carlisle, PA. External safety cages shall be fully factory assembled consisting of a ¼" galvanized steel wire mesh with a 4" square grid pattern and 3" long corrosion-resistant metal angle-connecting clips. External safety cage attaches to 1¾" x 2" corrosion resistant angle brackets. The external safety cage assembly is to be attached to the skylight frame using corrosion-resistant #8 TEK screws with an interval spacing of no more than 12" centers. External safety cage shape may vary based on size and rise of skylight.

## Features

- » ¼" Galvanized Steel Wire Mesh
- » 4" x 4" Grid Pattern
- » External Safety Cage Kit includes Corrosion-Resistant Metal Connecting-Clips & Fasteners  
Example model number where applicable:  
i.e. **4848-SCAGE**

## Codes and Approvals

Carlisle external safety cage has been load-tested and complies with OSHA – CFRs for fall protection.
