

CARLISLE'S AUTHORIZED APPLICATORS MARKETING ANNOUNCEMENT

TPO-2016-13
Sure-Weld® TPO Detail Membrane
November 15, 2016

To: Carlisle SynTec Systems' Authorized Applicators

Carlisle SynTec Systems is pleased to announce that Sure-Weld TPO prefabricated accessories will now be manufactured from Carlisle's new TPO Detail Membrane. Featuring enhanced flexibility and a matching top and bottom ply (white-on-white, gray-on-gray, and tan-on-tan), accessories made from Sure-Weld TPO Detail Membrane will provide applicators with a number of benefits, including:

- eliminating the need for T-Joint Covers at three-way membrane intersections, saving money and labor;
- easier application around penetrations and step-offs; and
- easier installation in a wider range of temperatures.

The following products will be manufactured from Carlisle's Sure-Weld TPO Detail Membrane. Please note that the product codes and available sizes of these items will remain the same.

- Sure-Weld Split Pipe Seals
- Sure-Weld Square Tubing Wraps
- Sure-Weld Curb Wrap Corners
- Sure-Weld Custom Prefabricated Accessories

These prefabricated accessories are part of Carlisle's Certified Fabricated Accessory (CFA) program. CFAs are the only factory-fabricated TPO accessories that meet the stringent quality tolerances required for inclusion in a Carlisle warranted roofing system. Look for the CFA insignia on all of Carlisle's prefabricated TPO accessories.

Carlisle will begin shipping products made from Sure-Weld TPO Detail Membrane once existing inventory has been depleted. If you have any questions, or for more information, please contact your Carlisle Manufacturer's Representative.

Regards,

Michael Puzdrak
Manager, TPO Product Development
