

EconoEdge Product Line

ROOF EDGE PRODUCTS (H)

Get an Edge on the Competition

All commercial roofing projects, regardless of size or location, require products with ANSI/SPRI ES-1 testing to meet the International Building Code. They also require economical pricing and high levels of performance. The EconoEdge product line was developed as a simple edge metal solution that is competitively priced and meets the ANSI/SPRI ES-1 Standard. The products are eligible for up to a 20-year warranty for winds up to 80 mph.

Dependability is Inherent

Carlisle offers its roof edges in a variety of colors and finishes, but one thing always remains the same – performance. With Carlisle's EconoEdge products, you get:

- More than 50 years of proven commercial roofing experience
- Industry-leading, total system warranties
- Inclusion in a comprehensive roof system that includes membrane and insulation

EconoEdge Retainer Fascia

- Pre-punched to ensure proper spacing and installation
- Snap fit
- Works with all single-ply membranes
- Economical and easy to install
- Exceeds ANSI/SPRI ES-1 requirement
- Does not require crimping
