Sustainable Roofing and Waterproofing Alliance Draws Global Audience for Fall Conference

(Carlisle, Pa.) – September 29, 2014 – The Sustainable Roofing and Waterproofing Alliance (SRWA) will host its sixth annual Fall Conference from October 14-17, 2014, in Hershey, Pennsylvania. This event will bring together a global audience of architects, roof consultants, building design professionals, contracting firms, and building owners. The 2014 Fall Conference will feature in-depth informational sessions and hands-on demonstrations, which are designed to educate and advocate for green building practices.

This year's SRWA conference will draw more than 250 representatives from around the world. The international audience will include attendees from 26 countries, including delegates from China, Japan, Thailand, South Africa, Brazil, and Colombia, as well as several other Latin American, Asian, and European countries. The U.S.-based delegates represent 30 states, including Washington, California, Florida, Alabama, and Massachusetts.

This educational program will feature several highly respected speakers from the architectural and design communities, including:

- Paul Buccellato, Principal at Henshell and Buccellato, Consulting Architects
- Peter Craig, Concrete Floor Specialist and Consultant at Concrete Constructives
- Philip Dregger, President of Technical Roof Services, Inc.
- Dr. Joseph Lstiburek, Principal at Building Science Corporation
- Jörg Breuning, CEO of Green Roof Service, LLC

The SRWA will also present some of its distinguished guests with prestigious recognition awards. These awards will honor industry icons for their valuable contributions to the roofing and waterproofing industries.

About the Sustainable Roofing and Waterproofing Alliance

The SRWA partners the unmatched roofing and waterproofing capabilities of Carlisle Construction Materials with consultants who are committed to advocating for the highest-performance and most sustainable roofing and waterproofing systems. The SRWA's focus extends far beyond roofing materials and systems, striving instead to provide services and solutions throughout the entire roofing and waterproofing process – from specification and design to installation and maintenance. SRWA affiliates have access to premier training and sophisticated tools to facilitate forensic analysis, installation, and design for energy-efficient and sustainable assemblies.

About Carlisle Construction Materials

Carlisle Construction Materials is part of Carlisle Companies (NYSE:CSL), a diversified global manufacturing company serving the construction materials, commercial roofing, power transmission, heavy-duty brake and friction, foodservice, aerospace, and test and measurement industries.
