### **Representative Matthew Dowling Visits Smithfield, Pennsylvania, Polyisocyanurate Manufacturing Facility**

(Carlisle, Pa.) – September 8, 2017 - Carlisle Construction Materials (CCM) hosted Pennsylvania State Representative Matthew Dowling and a team from his office on August 30, 2017, for a tour of its Smithfield, Pennsylvania, Polyisocyanurate (Polyiso) insulation manufacturing facility. Representative Dowling and his team observed the facility’s production of Polyiso insulation and met with several of the company’s employees.

CCM invited these legislative officials as part of an ongoing effort to raise legislators’ awareness of the benefits that manufacturers bring to their communities and to discuss the challenges now facing America’s manufacturing sector.

“As a Pennsylvania-based manufacturing company, we were privileged to host Representative Dowling and his team. We are eager to discuss ways in which we can work together to create and sustain good-paying jobs for Pennsylvanians and support the growth of the manufacturing industry,” said Mike DuCharme, CCM’s Vice President of Marketing.

“Our visit allowed me the opportunity to view the process taking place in Smithfield, but more importantly it facilitated a conversation about improvements that can be made for manufacturers in the Commonwealth. I am happy CCM chose to invest in our community over the last decade, and am encouraged by their potential for growth,” said Representative Dowling.

CCM is a member company of the Polyisocyanurate Insulation Manufacturers Association (PIMA), a national trade association representing Polyiso insulation manufacturers and suppliers to the Polyiso industry. PIMA advances the use of Polyiso insulation and is one of the nation’s foremost industry advocates for energy-efficient practices and policies. In addition, PIMA has been recognized by both the Environmental Protection Agency (EPA) and the Sustainable Building Industries Council for its advocacy and products.

#### **About Carlisle Construction Materials**

Carlisle Construction Materials is part of Carlisle Companies (NYSE: CSL), a diversified global manufacturing company serving the construction materials, commercial roofing, power transmission, heavy-duty brake and friction, foodservice, aerospace, and energy industries.
